

FASTENER
TRAINING
INSTITUTE

Fastener Basics

Fastener Basics provides extensive fastener parts knowledge to those new to the fastener industry and to those looking to better understand fastener products. This day-long class is presented across the country several times a year by industry experts and is also available through on-demand webinars in the FTI Online Learning Library. Completion of Fastener Basics serves as a pre-requisite to attend Fastener Training Week for anyone with less than two years of fastener experience.

TOPICS INCLUDE

- Drives
- Screw Heads
- Screw Points
- Thread Styles
- How Length is Measured
- Socket Products
- Large Threaded Fasteners
- Nuts
- Washers
- Rivets
- Sems
- Pins
- Anchors
- Appearance and Plating, including color, appearance, and finish.
- Grade Markings for Steel Bolts and Screws
- Thread Sizes and Threads Per Inch
- ISO Metric Diameter and Pitch Combinations
- Suggested Standard Abbreviations
- How to Call Out Parts

ABOUT FASTENER TRAINING INSTITUTE

The Fastener Training Institute is a nonprofit organization that provides beginning and advanced training on fastener products, standards and specifications. Its core purpose is to enhance fastener use, reliability and safety with a mission to make industry professionals more knowledgeable about the fastening products they buy, sell, specify or use.
